PROFESSIONAL SUMMARY

Cybersecurity graduate and R&D Acting Team Lead at Detroit Axle, focused on secure internal tooling, automation, and data-driven auditing. Lead developer of FAST, a company-wide operations platform whose automated FedEx billing audits cover roughly 5 million records and save over \$20K per week. Hands-on experience in penetration testing and blue-team defense at the National Cyber Security Center of Jordan, supported by ISC2 CC and Fortinet FCF certifications. Creator of The Zero Day, a live vulnerability-intelligence platform, and the open-source security tools Caeruleum, Vigil, and Aurum.

WORK EXPERIENCE

- Detroit Axle | R&D Acting Team Lead (previously Solutions Developer)** Mar 2026 - Present
- Promoted from Solutions Developer to Acting Team Lead; led FAST, used company-wide for time tracking, support workflows, sales visibility, and carrier-bill auditing.
 - Built automated FedEx billing audits in FAST across ~5M rows, saving \$20K+/week and routing findings to departments.
 - Extended FAST with Amazon shipping-bill auditing (~\$1K/week credit backs) and Braintree-based scam flagging.
 - Built a QA tool with MFA and hardened security across internal tools; spent 45 days in Shanghai auditing logistics and building container-auditing tools; supported Canada/Mexico expansion.
- National Cyber Security Center Jordan (NCSCJO) | Cybersecurity Intern** Feb 2025 - Present
- Performed penetration testing and blue-team defense; developed tools to strengthen threat detection and response.
- Qbits | Freelance Full-Stack Developer** Ongoing
- Built a B2C, B2B, and internal management platform for Adawat using React and PostgreSQL (adawat.net).
- Self-Employed / Weavers | Freelance Full-Stack Developer** Ongoing
- Built a full-featured restaurant website for One Piece (Amman) and SMB web systems through Weavers (weavers-jo.netlify.app).
- FiberTechJo | Customer Support Intern** Dec 2024 - Present
- Supported technical teams resolving customer issues with clear communication and strong outcomes.
- Amazon UK | Customer Support Associate** Aug 2023 - Jan 2024
- Delivered customer service in a high-pressure environment across complex internal systems.

EDUCATION

Amman Arab University | BS in Cyber Security, GPA 3.54 / 4.0 (Very Good) Graduated 2026

CERTIFICATIONS & MEMBERSHIPS

Certifications: ISC2 Certified in Cybersecurity (CC) · Fortinet Certified Fundamentals (FCF) · Security Blue Team Junior Analyst (BTJA)
Security training: NCSC Jordan Cyber Warriors CTF (40 hrs) · Cisco Intro to Cybersecurity · OPSWAT Critical Infrastructure Protection
Vendor training: Microsoft Networking & Cloud · EC-Council Cloud Computing & Cybersecurity for Business · Splunk (Intro, Using Fields)
Cybrary: Offensive Security Operations · OSINT · Log Analysis · Cyber Kill Chains · Reconnaissance & Enumeration
Memberships & awards: IEEE Member · Cisco Networking Academy Learn-A-Thon 2025

TECHNICAL SKILLS

Languages & frameworks: Python, JavaScript, TypeScript, React, Django, PostgreSQL, C++, REST APIs, PowerShell, Bash
Security: Penetration testing, blue team, threat hunting, OSINT, vulnerability management, forensics, MFA & hardening, CVE triage
Tools: Splunk, Wireshark, TCPdump, Nessus, Redline, Autopsy, GitHub/GitLab (dev & production)

SELECTED PROJECTS & PUBLICATIONS

- The Zero Day | thezeroday.org** Django · React · TypeScript · PostgreSQL
- Live cybersecurity news and vulnerability-intelligence platform aggregating 32 sources every 15 minutes; links articles to CVEs and ranks patch priority using NVD, CISA KEV, EPSS, and exploit data.
- Caeruleum / Vigil / Aurum | github.com/Cipher-Red** Python · 270+ clones
- Open-source tools for forensic analysis, network traffic monitoring, and email validation.
- Publication: "Jamming and Anti-Jamming Techniques on Wireless Networks"** Dec 2024
- Analyzes wireless jamming attacks and evaluates anti-jamming techniques to improve network resilience ([ResearchGate](https://www.researchgate.net/publication/380000000)).
